

05.10.2015 Press Release

New independant Consultancy Enterprise to support more sustainable Transport & Mobility

Ladies and Gentleman, dear Editors:

It is a great pleasure for me to inform you on the foundation of:

MOVING FORWARD CONSULTING

The aim of **MOVING FORWARD CONSULTING** is to address the innovations, challenges and future developments in **Transport and Mobility**, and work with Public and Private Clients to create **innovative** policies, services, systems and solutions, based on Intelligent Transportation Systems (ITS). We strive for **Sustainability**, with better efficiency, reduction of congestion, accidents, and fatalities, improved financing, and protection of the environment.

With our global experience and competence we would like to support the Transport sector, covering the following areas:

- Road Finance with Tolling & Charging for Highways or Cities
- Policy Development
- Road Safety
- ITS Applications for Cities, Freight & Logistics, Harbors
- Technology Deployment
- Program, Market and Business Development; Project Management
- Transport Studies
- Quality and Auditing
- Training and Coaching

For details, please visit www.MOVING-FORWARD-CONSULTING.com

Increase the Quality of Life with better Transport and Mobility!

Please contact me: I would be pleased to explain to you our services in more detail. Or, are you attending the upcoming **ITS World Congress 2015 in Bordeaux**, France, from October 5-8? I'd be happy to meet you there.

Kind regards,

Josef Czako
